

CR4 CERAMIC RESONATOR

Ceramic 4 MHz resonator with space saving built-in capacitors. Ideal for microprocessors

- Frequency tolerance @ 25°C
 - $\pm 0.5\%$ max
- Frequency stability over temperature
 - $\pm 0.3\%$ max
- Operating temperature
 - -20°C to +80°C
- Built-in capacitors
 - 30pF

0.1 inch pin spacing
